1. Cut a top note die fold down the center length ways
2. Cut in calf the folded top note this will then make two pairs of shoes!

3. punch the legs hole with a 3/4" circle or 1" circle depending on how wide you want the legs to be.
4. At the point of the shoe is where you will line up the large oval for the rest of the shoe shape.

5. after lining up, punch with the large oval to finish the shoe shape
6. Do this to both folded shapes and you'll have both sets of shoes exactly the same as each other.
